JOURNAL OF

VESTIBULAR RESEARCH:

Equilibrium & Orientation

An International Journal of Experimental and Clinical Vestibular Science

Contents/Author/Keyword Index

Volume 2, 1992

Pergamon Press

New York Oxford Seoul Tokyo

JOURNAL OF VESTIBULAR RESEARCH
Equilibrium and Orientation

Co-Editors-in-Chief

Ralph M. Jell, PhD
Basic Science

Desmond J. Ireland, MD
Clinical Science

Garfield-Weston Vestibular Laboratory
The University of Manitoba
Health Sciences Research Centre MS748
820 Sherbrooke Street
Winnipeg, MB, Canada R3A 1R9

Chairman

Professor Geoffrey Melvill Jones
Department of Clinical Neurosciences
The University of Calgary Health Sciences Centre
3330 Hospital Drive N.W., Calgary, Alberta, Canada

Editorial Board

Robert W. Baloh, MD, *Center for the Health Sciences, UCLA School of Medicine, Los Angeles, CA*
Hugh O. Barber, MD, *Dept. of Otolaryngology, Sunnybrook Hospital, Toronto, Ontario, Canada*
Graham R. Barnes, PhD, *MRC Human Movement and Balance Unit, Institute of Neurology, London, UK*
Alain Berthoz, PhD, *Laboratoire de Physiologie Neurosensorielle, CNRS, Paris, France*
F. Owen Black, MD, *Division of Neurotology, Good Samaritan Hospital and Medical Center, Portland, Oregon*
Kenneth Brookler, MD, *Neurotologic Associates, PC, New York, NY*
Bernard Cohen, MD, *Dept. of Neurology, Mt. Sinai School of Medicine, New York, NY*
Ian S. Curthoys, PhD, *Dept. of Psychology, The University of Sydney, Sydney, Australia*
Johannes Dichgans, MD, *Dept. of Neurology, Eberhard-Karls University, Tübingen, Germany*
Malcolm D. Graham, MD, *Michigan Ear Institute, Farmington Hills, MI*
Fred E. Guedry, Jr., PhD, *Medical Sciences Department, Naval Aerospace Medical Research Labs, Pensacola, FL*
Timothy Hain, MD, *Dept. of Neurology, Johns Hopkins Hospital, Baltimore, MD*
G. Michael Halmagyi, MD, *Eye and Ear Unit, Royal Prince Alfred Hospital, Camperdown, Sydney, Australia*
Volker Henn, *Neurologische Klinik und Poliklinik, Universitatsspital Zurich, Zurich, Switzerland*
Susan J. Herdman, PhD, *Dept. of Otolaryngology HNS, Johns Hopkins University School of Medicine, Baltimore, MD*
Makoto Igarashi, MD, *University Research Center, Nihon University, Tokyo, Japan*
I.B. Koslovskaya, MD, *Institute of Biomedical Problems, Institute of Biomedical Sciences, Moscow, Russia*
Hana Krejcova, MD, *Dept. of Neurology, Charles University, Prague, Czechoslovakia*
Toru Matsunaga, MD, *Dept. of Otolaryngology, Osaka University Medical School, Osaka, Japan*
Lewis M. Nasher, ScD, *Neurological Sciences Institute, Portland, OR*
Michael Norré, MD, *Dept. of Otoneurology & Equilibriometry, University of Leuven, Leuven, Belgium*
Lars M. Ödkvist, MD, *Dept. of Otolaryngology, Regionsjukhuset, Linköping, Sweden*
Charles M. Oman, PhD, *Dept. of Aeronautics & Astronautics, MIT Man Vehicle Lab, Cambridge, MA*
Michael M. Paparella, MD, *Minnesota Ear, Head & Neck Clinic, Minneapolis, MN*
Barry W. Peterson, PhD, *Dept. of Physiology, Northwestern University Medical School, Chicago, IL*
Ottavio Pompeiano, PhD, *Dept. of Physiology, University of Pisa, Pisa, Italy*
Ilmari Pyykkö, MD, *University Hospital, Helsinki, Finland*
Ted Raphan, PhD, *Dept. of Computer & Information Science, Brooklyn College, Brooklyn, NY*
Millard F. Reschke, PhD, *Biomedical Research Division, NASA-Johnson Space Center, Houston, TX*
Robert H. Schor, PhD, *Eye and Ear Institute, Pittsburgh, PA*
Charles W. Stockwell, PhD, *Providence Hospital, Southfield, MI*
Walter Waespe, MD, *Dept. of Neurology, University Hospital, Zurich, Switzerland*
David S. Zee, MD, *Dept. of Neurology, The Johns Hopkins University, Baltimore, MD*

Editorial Office: Garfield-Weston Vestibular Laboratory MS-748, Health Sciences Clinical Research Centre, University of Manitoba, 820 Sherbrooke St., Winnipeg, MB, CANADA R3E OW3.

Publishing, Subscription, and Advertising Offices: Pergamon Press Inc., 660 White Plains Road, Tarrytown, New York 10591-5153, USA, INTERNET "PPI@PERGAMON.COM" and Pergamon Press Ltd., Headington Hill Hall, Oxford OX3 0BW, England.

Published Quarterly. *Annual Institutional Subscription Rate* (1993): £100.00 (US $160.00). Sterling prices are definitive. US dollar prices are quoted for convenience only, and are subject to exchange rate fluctuation. Prices include postage and insurance and are subject to change without notice.

CONTENTS INDEX

VOLUME 2, 1992

Volume 2, Number 1 1992

CONTENTS

Original Contributions

C. Schnabolk **T. Raphan**	1	Modeling 3-D Slow Phase Velocity Estimation during Off-Vertical-Axis Rotation (OVAR)
B. de Graaf **H. Bekkering** **C. Erasmus** **W. Bles**	15	Influence of Visual, Vestibular, Cervical, and Somatosensory Tilt Information on Ocular Rotation and Perception of the Horizontal
I. Prigioni **S. Masetto** **G. Russo** **V. Taglietti**	31	Calcium Currents in Solitary Hair Cells Isolated from Frog Crista Ampullaris
P.L.M. Huygen **M.G.M. Nicolasen**	41	Fitting Adaptation Models to Velocity Step Responses: Simulation of Normal and Abnormal Responses
R.J. Peterka **M.S. Benolken**	59	Relation between Perception of Vertical Axis Rotation and Vestibulo-Ocular Reflex Symmetry
J.A. Waterston **G.R. Barnes**	71	Visual–Vestibular Interaction during Head-Free Pursuit of Pseudorandom Target Motion in Man
M. Shelhamer **D.A. Robinson** **H.S. Tan**	89	Context-Specific Adaptation of the Gain of the Vestibulo-Ocular Reflex in Humans

Book Review

J.L. Johnston	97	*Vestibular Disorders* edited by H.O. Barber and J.A. Sharpe

INDEXED IN Cam. Sci. Abstr., CABS, ISI

ISSN 0957-4271
(936)

Volume 2, Number 2 Summer 1992

CONTENTS

Original Contributions

G. Wei, S.H. Lafortune, D.J. Ireland, R.M. Jell 99 Stimulus Velocity Dependence of Human Vertical Optokinetic Nystagmus and Afternystagmus

V.I. Pogossian, V.V. Fanardjian 107 Organization of Afferent Projections to the Ventral and Dorsal Regions of the Cat Lateral Vestibular Nucleus: An HRP Study

S.F. Myers 123 Patterns of Low-Frequency Rotational Responses in Bilateral Caloric Weakness Patients

G.D. Paige 133 Senescence of Human Visual–Vestibular Interactions: 1. Vestibulo-Ocular Reflex and Adaptive Plasticity with Aging

O.I. Kolev, L. Tibbling 153 Vestibular and Cardiac Reactions to Open-Sea Exposure

M.E. Norré 159 Contribution of a Posturographic Six-Test Set to the Evaluation of Patients with Peripheral Vestibular Disorders

Technical Notes

W.P. Huebner, R.J. Leigh, C.W. Thomas 167 An Adjustment to Eye Movement Measurements that Compensates for the Eccentric Position of the Eye Relative to the Center of the Head

J.R. Holden, S.L. Wearne, I.S. Curthoys 175 A Fast, Portable Desaccading Program

Volume 2, Number 3 Fall 1992

CONTENTS

Original Contributions

H.P. Zenner **G. Reuter** **S. Hong** **U. Zimmermann** **A.H. Gitter**	181	Electrically Evoked Motile Responses of Mammalian Type I Vestibular Hair Cells
G.R. Barnes **M.A. Grealy**	193	Predictive Mechanisms of Head-Eye Coordination and Vestibulo-Ocular Reflex Suppression in Humans
U.J. Bucher **F. Mast** **N. Bischof**	213	An Analysis of Ocular Counterrolling in Response to Body Positions in Three-Dimensional Space
D.L. Burgio **B.W. Blakley** **S.F. Myers**	221	The High-Frequency Oscillopsia Test
E. Njeugna **J.-L. Eichhorn** **C. Kopp** **P. Harlicot**	227	Mechanics of the Cupula: Effects of its Thickness
S.J. Heinen **D.K. Oh** **E.L. Keller**	235	Characteristics of Nystagmus Evoked by Electrical Stimulation of the Uvular/Nodular Lobules of the Cerebellum in Monkey
B.S.K. Cheung **K.E. Money**	247	The Influence of Age on Susceptibility to Motion Sickness in Monkeys

Volume 2, Number 4 Winter 1992
